

CompTrak, a leading compensation management solutions provider, located in the greater Toronto area is looking for a dynamic individual(s) to join our development team. We are looking to hire experienced **.Net Developers** to help us as we continue growing. If you are hard-working, a self-starter and dedicated, CompTrak is an ideal place for to get ahead.

This job will require you to be able to work independently and in a team environment to design, modify, develop, write, and implement software programming applications and components.

Under the supervision of our Application Architect, the .Net Developer supports and/or installs software applications and components; works from written specifications and pre-established guidelines to perform the functions of the job and maintains documentation of process flow.

#### Requirements

- Bachelor's Degree in Computer Science, Mathematics, or Engineering.
- 2+ years of development experience
- Ability to work and consult with colleagues as well as independently
- Eager to learn from senior staff
- Collaborate and bring forward ideas in team meetings
- Utilize established development tools, guidelines and conventions including but not limited to ASP.NET, SQL Server, HTML, CSS, JavaScript/JQuery, and C#
- Experience with both Web Forms and MVC
- Design, code and test new Web software applications
- Enhance existing systems by analyzing business objectives, preparing action plan and identifying areas for modification and improvement
- Maintain existing software systems by identifying and correcting software defects
- Investigate and develop skills in new technologies
- Create technical specifications and test plans
